Scilit

A centralized platform for scholarly publications

Making research discoverable

MDPI

scilit.net

Scilit is a comprehensive, free database for scientists using a new method to collate data and indexing scientific materials.

The world's scholarly publications at your fingertips

Scilit covers 157 million scholarly publications, including over 24 million open access articles and 3 million preprints.

Rapid access to the latest scholarly publications & preprints

Scilit's unique content aggregation approach means that new publications are typically covered within hours.

Insights into academic trends through bibliographic data analysis

Scilit publishes Rankings and offers the possibility to run custom analytics empowering users to understand trends in academia.

For Scholars & Sources

Search:	- Find out the latest publications by (advanced) searching in the comprehensive and centralized platform
	- Check citation-based metrics and corresponding subjects
	- Refine the results freely based on several terms
	- Check the scholar, journal, publisher and organization profiles, based on the publication and citations data
	app.scilit.net
